Nice It's a very simple utility with a simple interface. It's a very simple utility with a simple interface. For a freeware utility, it works well and performs exactly what it's supposed to. It also has some nice extras such as: when plugged in, power plan changes, when battery low, power plan changes, shutdown options, start up options, display options and a lot more. Bad It has very simple interface. It has very simple interface. It has very simple interface. Maybe not as polished as I expected but it does it's job and does it very well. The simple interface means it's easily accessible but the fact that it's simple means it's not very comfortable to navigate or learn. Overall, a great program, although the developers need to add a few more features.
