Until now I could not find out what it does, however I did find its download site, which is also where you can get the free trial as well. .15 Benefits of Being Married in the Digital Age: 1. Being in a LTR (Long Time Relationship) will increase your income Your life won't be easy if you don't make money. The fact is that half of your income goes to supporting your partner. If you get married, your partner has to work less for the same amount of money. Paying alimony is one of the ways you reduce the expenses you do with your partner. You just spend less and save more money. There are so many resources to help you reduce your expenses. 2. Being married will lead to more productivity If you are a successful entrepreneur, it's hard to manage your time well. You have too many tasks on your plate. When you are single, you are in control of your time. You can decide how you'd like to spend your time. You're more responsible with this responsibility.
